Overview of the Court's statistics in 2015

The Court's statistics for 2015 disclose like last year a lower number of incoming cases allocated to a judicial formation. This is partly the result of a new approach to Rule 47 of the Rules of Court, which determines what applicants are required to do for their application to be allocated for judicial decision. However, there is also an indication of a falling off in demand with a lower number of cases coming into the system and in particular a lower number of applications allocated to the Single Judge. This has helped the Court to reduce the stock of pending cases since the number of applications disposed of exceeds the volume of incoming cases.

The backlog of inadmissible cases has been eliminated which explains the decrease in the number of applications decided by the Single judge. As the Court focuses on other categories of cases, productivity will tend to remain more stable, with fluctuations depending on when large groups of cases are processed and adjudicated. This change of focus is reflected in the increase in the number of applications in those other categories (I to V) which were communicated or decided by judgment or decision. 9,999 more such applications were processed in 2015 than in 2014.

A. Number of new applications

In 2015 40,650 applications were allocated to a judicial formation, an overall decrease of 28% compared with 2014 (56,200). 27,050 of these were identified as Single-Judge cases likely to be declared inadmissible (a decrease of 40% in relation to 2014). 13,600 were identified as probable Chamber or Committee cases (a decrease of 19%). It is the second year in a row that the number of allocated cases has decreased (- 15% in 2014).

B. Applications disposed of judicially and pending applications

45,576 applications were disposed of judicially, a decrease of 47% in relation to 2014 (86,068). The number of cases disposed of exceeded those allocated by more than 4,900 (i.e. a monthly surplus of around 400). As a result, the stock of allocated applications pending before the Court decreased over the year, by 7% from 69,900 to 64,850.

C. Processing of applications

1. Pre-allocation

As at 31 December 2015 the number of applications pending at this pre-judicial stage stood at 10,000, a decrease of 48% in relation to the same date the previous year (19,050). The number of applications disposed of administratively in 2015 was 32,400, an increase of 29%. 45% of these files were disposed of under Rule 47.

2. Inadmissibility or strike out decisions

In 2015 43,135 applications were declared inadmissible or struck out of the list of cases by a Single Judge, a Committee or a Chamber, a 48% decrease compared with 2014 (83,680).

The Single-Judge formation decided 36,314 cases in 2015, a decrease of 54% compared with 2014 (78,664).

The number of applications struck out by a Chamber or a Committee, in a decision or a judgment, following a friendly settlement or a unilateral declaration, increased by 111% in 2015 (4,628 compared to 2,198 in 2014). Friendly settlements (1,658) decreased by 2% (1,696 in 2014) and unilateral declarations were multiplied by almost six (2,970 compared to 502 in 2014).

The remainder of the applications were either declared inadmissible by a Chamber or a Committee or struck out by these formations on other grounds.

3. Communicated applications

Where an application is not on its face inadmissible, it is communicated to the respondent Government. In 2015 15,965 applications were communicated (an increase of 102% compared to 2014 when 7,895 applications were communicated).

4. Judgments

Judgments were delivered in respect of 2,441 applications (compared with 2,388 in 2014 – an increase of 2%). A significant proportion of these applications were joined with the result that the number of judgments actually delivered was 823, a decrease of 8%. 177 judgments (in respect of 1,589 applications) were adopted by a three-judge Committee formation. These judgments accounted for 65% of the applications decided by a judgment (59% in 2014).

5. Requests for interim measures (Rule 39 of the Rules of Court)

The total number of decisions on interim measures (1,458) decreased by 25% compared with 2014 (1,939). The Court granted requests for interim measures in 161 cases (a decrease of 25% compared with 216 in 2014) and dismissed them in 630 cases (19% less than the 782 in 2014). The remainder fell outside the scope of Rule 39 of the Rules of Court. 39% of the requests granted are linked to the conflict in Ukraine.

D. Priority policy ¹

The essence of this policy is to concentrate more resources on the most important cases, namely the cases falling within the top three categories (“priority applications”). At 31 December 2015 there were 11,490 applications in these categories.

The number of priority applications dealt with at different stages of the procedure in 2015 increased by 10% compared to 2014. 37% more priority applications were communicated to the respondent Governments in comparison with 2014. The number of priority applications declared inadmissible or struck out of the list of cases by a Chamber or Committee decreased by 35%. The number of priority applications struck out following a friendly settlement or a unilateral declaration decreased from 326 in 2014 to 302 in 2015. The number of priority applications giving rise to a judgment increased by 11% in 2015.

² Figures represent the total number of applications, including joined applications. The document generally gives round figures. The upsurge in applications allocated in 2002 was due to a change in working methods, transferring much of the screening of inadmissible applications from the administrative, pre-judicial phase to the judicial stage.
